

Stepping Up to Light Sport

"I've been flying for decades, and have thousands of hours logged in all kinds of high-performance aircraft. Flying those little Light Sport airplanes should be a piece of cake." If you believe that, you haven't been reviewing the accident statistics! Attend this WINGS seminar and learn why transitioning to LSA is just as challenging as moving from simple to complex, and what you can do to keep yourself safe when flying slow with light wing loading! This safety seminar is part of the 10th anniversary of the US Sport Aviation Expo. Click on the link below to see all of the details and register TODAY!

Directions: Middle T-hanger in the Sport Aviation Expo forum area.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
